‘Soil Selfies’ Contribution from

What to do: create the following photos and notes and email it to enviroed4all@gmail.com
(As soils may vary quickly over land, you may want to do more than one ‘Soil Selfies’ to show different uses for different soil types. Please send them separately):

1. Choose your soil **location!**
2. **Take jpg photos** of your soil – they don’t need to be bigger than 2 mB, and attach each to the email please
 - 2.1. **closeup**, to show its **detail** name of jpg
 - 2.2. show why it matters to you – your **use** of it name of jpg
 - 2.3. what **challenges** or **management** techniques you have with it name of jpg
3. **Write notes to go with it:**
 - 3.1. **title** for your contribution – your NAME for this soil
 - 3.2. **location** of photo –
 - 3.2.1. photo shows topsoil or subsoil, if not obvious in it?
 - 3.2.2. **rural or urban**
 - 3.2.3. ‘**landform**’ location eg planter box, flat, hill, stream bank etc
 - 3.2.4. location by **district name/town**/suburb/city/region/country,
 - 3.3. **describe** the soil in this photo eg texture, moisture etc

3.4. describe your **values/uses** of this soil – the one in your photo first, then any others you have.
.....
.....

3.5. describe any **challenges/management methods** you have using the soil in the photos, then any not shown
.....
.....
.....

3.6. **permissions and links**

3.6.1. **your name** with **permission** to use your photo and information under a **(cc) license**.
.....
.....

3.6.2. If you say **not** to put your name on the web, initials only will be used.

3.6.3. **optional photo of you** please include a small one if you want it attach jpg

3.6.4. **optional link to your webpage**, please include if it shares more about this soil write http link
.....

4 email photos, comments and permissions to enviroed4all@gmail.com during March 2015 please.

Thanks for your celebrating and sharing your soils with your completed 'Soil Selfies'.

Please check the <http://soils.enviroed4all.com.au/soil-selfies/> website in mid-late April to see the collection!

Jeanie, enviroed4all@, Warracknabeal, Victoria, Australia.

PS As this is a volunteer activity for the IYSoils, it needs your help to suggest to others to add their 'Soil Selfies' too.
Thanks!
